

3DSYSTEMS®

# CubeX™ 3D printer- need big, professional grade parts fast? With CubeX it's a slam dunk!

Work and play bigger and bolder with the CubeX ultimate desktop 3D printer: The only printer in its class to print in triple-color, up to 2X faster and in higher definition basketball-sized functional parts.

Built with tech enthusiasts, serious hobbyists, educators and entrepreneurs in mind, the CubeX 3D printer offers three times the options for print modes empowering you to select print accuracy and strength as you make and create in multi-color.

The CubeX delivers professional grade printability with consumer ease. CubeX is the ideal 3D printer for budget conscious entrepreneurs developing their new products, educators who need larger print sizes, greater precision or more material choices, and serious hobbyists who want the professional quality and expanded features that are not available on any other 3D printer in this category. Whether you are printing gadgets, prototypes, architecture models, math geometries or toy robots, the CubeX provides the ultimate professional grade 3D printing experience.

3D Systems has made 3D printing even easier to own and simpler to use by including 3 cartridges, 10 free prints, and Cubify Invent design software – the only 3D design tool optimized for 3D printing, with every CubeX 3D printer. CubeX starts at \$2,499.

## PRODUCT FEATURES

### Professional printability:

CubeX can print as big as a basketball with 1,030 cubic inches of space or 10.8" x 10.45" x 9.5". CubeX offers 3 times the options for print modes: Accuracy - high-def (125 Micron), crisp-def (250 Micron) or standard-def (500 Micron); print fill density - lite, medium or solid. CubeX prints in triple-color, up to 2 times faster than other 3D printers in its class.

### Smart cartridge systems:

Cartridges are designed to prolong material quality and life preventing expired or broken plastic while also offering a stackable design for compact storage.

### Consumer centric:

Experience hassle-free 3D printing with an easy touchscreen interface, lightening fast software, direct from USB print capability, and access to Cubify marketplace and cloud print services. CubeX customers are supported by live hotline everyday from 3:00am to 8:00pm EST providing 16 hours each day.

## Material options:

CubeX prints in both compostable PLA and recyclable ABS plastics, providing a range of flexibility, strength, and support options for professional utility. CubeX comes in the basic single color CubeX, dual color and material CubeX Duo or the top of the line triple color, multi-material CubeX Trio. The CubeX Trio has the highest range of print options of any desktop 3D printer.

## Sustainability:

Participate in our cartridge and materials recycling program to get a discount on new cartridges and ensure sustainable disposal or reuse of your used PLA and ABS plastic.

## Print pack:

With every CubeX purchase, users receive one cartridge per print head, 10 free files, and Cubify Invent design software optimized for 3D printing so users can get started printing quickly and easily.
